

Wine Spoilage Micro Test

8 Spoilage Organisms in 1 Test

Distributed by Unitech Scientific

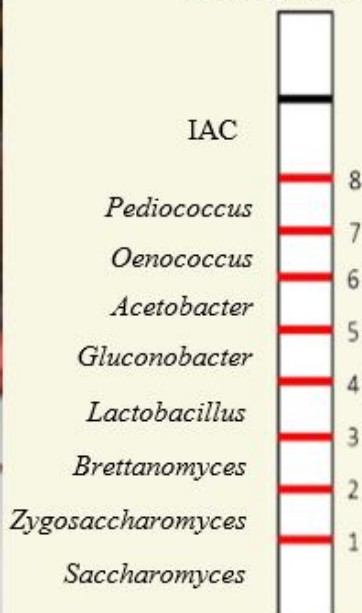

- Detects 8 wine spoilage organisms:

Pediococcus, Oenococcus, Acetobacter, Gluconobacter, Lactobacillus, Brettanomyces, Zygosaccharomyces, Saccharomyces

- Direct detection from a wine sample in under 2 hours
- Detection from enrichment: 24 - 48 hours
- Limit of Detection: 1 cfu/sample

DNA Lateral Flow

Optional Accessory

Portable PCR (Not Included)

- (L 5" X H 5.5" X W 3" 1.4 lb)
- Runs up to 8 or 24 Samples
- Wireless or HDMI cord connectivity
- Controlled with laptops, desktops, androids, or iPhones
- Heating ramp speed 3.75 degree/s, cooling 1.4 degree/s
